## WHAT IS A LIMIT ORDER?

A cost free order to buy or sell one currency against another when a pre-determined price is reached. It is placed with NU Currencies either by telephone, email or fax and offers 24 hour protection and remains good until cancelled (GTC).

Limit Orders may be used when a company wants to take advantage of any exchange rate movement in their favour.

A Limit Order may be placed with NU Currencies on an overnight or longer basis (days/weeks) provided that the Order meets the minimum order requirement of GBP 50,000. Orders below this level are taken on an intra-day basis.

A Limit Order provides NU Currencies clients with flexibility when making their currency purchases for either Spot or Forward rate transactions. It is an excellent tool to allow a company to add value to their bottom line profitability when exchange rates move in their favour.

Market sentiment suggests GBP strength. A company seeks to take advantage of this rate move in their favour.

Limit Order provides ability to Buy EUR @ 1.2910 when reached.

## PLACING A LIMIT ORDER

Your NU Currencies FX dealer will help you find a relevant level to place your Limit Order, taking into account your cost levels, time frame and the current fundamental and technical market sentiment.
